To Whom It May Concern

Re John Perry, "Caught In The Act"

This College has worked with John and his Company for a number of years, installing a range of security cameras, monitors and recorders.

At the end of 2011 the College, through John's company, installed an upgraded digital system incorporating the HD Dallmeir System.

We are delighted with this product, in particular the digital clarity of the images and the additional functionality of high quality archiving and recording.

John and his team are always available to assist in the set up and user instruction process of all the systems he provides.

I would be quite happy to discuss our feedback in more detail should you wish to do so. Please contact me directly at the College to do this.

Yours sincerely,

Hugh Blaikie
Assistant Principal
