

To the Caught in the Act Team,

I would like to take this opportunity to thank you all for the assistance that you have provided our business since it's purchase in April 2006.

During that time we have expanded into a new state of the art supermarket and with increased footage came the need to expand our old monitoring system.

You provided a better than market place quote and assisted us with the best solution for our business. By being available and providing input at the construction stage together we worked towards the ease of installation/fit off and commissioning of the new system with allowances for future inclusions.

From the first phone call to your office through to the completed job and system training, your entire team were extremely helpful and professional.

Should you have a need to show like minded businesses our system, I would be happy to step your potential client through it.

Lastly, the after sales support (which is where your true integrity lies) has been second to none.

Thank you for your assistance

Yours Sincerely,

Adrian Denman
Supermarket Owner
